

The Oklahoma Educational Memorial Trust Foundation Honors . . .

Sara Lockard Franden

This scholarship was established to honor the life and work of Sara Lockard Franden who graduated from Holland Hall in 1993. She attended Texas Christian University and received a degree in Early Childhood and Elementary Education. She earned her master's at Northeastern State University in Reading Education in 1999.

Ms. Franden is currently a reading specialist at Eugene Fields Elementary. Her hope is that the male or female student who receives this scholarship is motivated to find a career that makes them happy. She also hopes that the student is involved and contributes to their community.

“Communities flourish when young students return or stay connected with their community,” is how Ms. Franden feels. She loves it when students who graduate from high school return to Eugene Fields for a celebratory parade through the halls of the school. It is an event that teachers, students, and graduates all enjoy and support.
